Proposition 2

Proposition 2 would replace and locate new sirens around the City of Sand Springs to insure that emergency notification is available to all citizens. Natural disasters across the country have caused communities like Sand Springs to evaluate the technology, equipment and age of our emergency notification systems. Another one of the many public safety functions the City provides is Animal Welfare. The City of Sand Springs Animal Welfare Facility was constructed in the early 1990's. The facility is now one of the oldest buildings in the community's inventory. Animal Welfare Officers cared for over 1,100 dogs and cats in 2021 with a live release rate of 90%. The total amount of funding these projects require is $**3,915,000.00.** Passage of this proposition would increase ad valorem tax on a $100,000 home in Sand Springs approximately **$0.74 per month.**
