

Proposition 1

Proposition 1 of the 2022 GO Bond Election is designed with the single goal of continuing the successful efforts of improving roadway conditions for citizens and visitors alike. Additionally, funding is critical to ensure that roads can continue to receive the needed maintenance in an expedited manner. The City of Sand Springs desires to increase the number of roadway overlays throughout the community. The total amount of funding these projects require is **\$4,325,000.00**. Passage of this proposition would increase ad valorem on a \$100,000 home in Sand Springs approximately **\$0.83 per month**.
